

*An open window on local services,  
infrastructures, investments and  
welfare policies*

all policies are local

/The **Turin School of Local Regulation (TSLR)** offers an international high-level research, education and capacity-building experience. The School adopts a policy-oriented approach, with the aim of spreading the culture and instruments of regulation and regulatory reform at local level, connecting academic research with local policy-makers, public officials, professionals, local regulatory agencies, NGOs, consumers' associations, chambers of commerce /

Local governance is widely engaged with two broad families of challenges and opportunities:

*Local services and local public assets*, and the related decisions on investments, procurement, tariff setting, asset management and distributional aspects. Different sectors are at stake, e.g.: waste and water cycle, energy, transport, green and sport facilities, education, local welfare .

*Regulatory reform at local level*, to improve regulatory quality in order to foster competition, innovation, economic growth and meet important social objectives.
